One Janitorial Operations Library

Version: v4.0.0

Release Date: June 23, 2026

Author: Antigravity Automated AI

Table of Contents

1. Overview & Purpose
2. Key Features & Blueprint
3. System Process Flow (Vector Diagram)
4. Step-by-Step Usage & Operations
5. Best Practices & Safety Guidelines
6. Troubleshooting & FAQ
7. Glossary & Appendix

1. Overview & Purpose

This user manual provides frontline coordinators, dispatchers, and cleaning managers with the step-by-step instructions needed to operate the One Janitorial platform.

Operators will learn how to manage service requests, interact with the SOP chatbot assistant, view active workflow progress, and process candidate profiles.

Additionally, users can now access the central Analytics dashboard via the Global Navbar to import and clean files, check descriptive statistics, and build reports.

2. Key Features & Blueprint

Ticketing Worklist: A dynamic, real-time board displaying active customer support tickets, sorted by urgency and SLA target timelines.

SOP Chatbot Panel: An embedded AI assistant capable of looking up operational manuals and training documents using semantic search.

Data Ingestion Studio: Drag-and-drop file ingestion module supporting CSV and Excel spreadsheets.

3. System Process Flow

4. Step-by-Step Usage & Operations

Logging into the Interface: Navigate to <http://localhost:3000/login>, choose your coordinator account, and input your password.

Using the Global Navbar: Switch between Tickets, CRM, HR, and Analytics instantly from the sticky navigation header.

Asking the AI Assistant: Go to Analytics -> AI Assistant, type questions about metrics, and review recommended action lists.

5. Best Practices & Safety Guidelines

- Always request customer ratings upon ticket closure to populate performance scorecards.
- Review chatbot suggestions carefully before copy-pasting answers to client communications.
- Verify uploaded CSV column headers in the data preview grid before running prep pipelines.

6. Troubleshooting & FAQ

- Login fails with invalid credentials: Use the self-service reset option or contact your system administrator.
- Ticketing board fails to update: Check connection status and refresh the page to renew the WebSocket subscription.
- Upload format rejected: Ensure file extension is CSV, JSON, XML, or TXT. Excel files should be exported to CSV.

7. Glossary & Appendix

- Coordinator: Frontline operations staff member responsible for ticket management and dispatch scheduling.
- CSAT: Customer Satisfaction Score - A metric derived from feedback surveys sent to clients after ticket resolution.
- Dashboard Widget: Reusable graphical card (Line, Bar, Pie) rendering aggregate metrics.
