

Reporting & Analytics Guide

Tableau-Style Centralized Analytics, Dashboard Builder, and Report Engine

One Janitorial Operations Library

Version: v4.0.0

Release Date: June 23, 2026

Author: Antigravity Automated AI

Table of Contents

- 1. Overview & Purpose
- 2. Key Features & Blueprint
- 3. System Process Flow (Vector Diagram)
- 4. Step-by-Step Usage & Operations
- 5. Best Practices & Safety Guidelines
- 6. Troubleshooting & FAQ
- 7. Glossary & Appendix

1. Overview & Purpose

Operations manual for tracking platform performance, API costs, call volume, and agent output.

Provides administrators and managers with Tableau-style centralized analytics, dashboard builder, and report exporter.

Enables staff to configure delivery schedules, share links safely, and clean raw uploaded data.

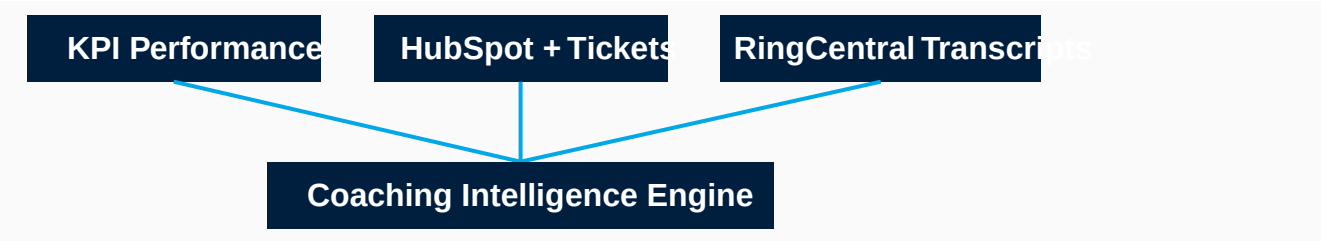

2. Key Features & Blueprint

centralized Data Studio: Panel providing file cleaning, column renaming, null handling, and typecasts.

Custom Dashboard Builder: Visual canvas supporting Line/Bar/Pie charts, KPI widgets, and gauges.

Secure Sharing: Links generator enabling passwords, expiry settings, and private role filters.

3. System Process Flow

4. Step-by-Step Usage & Operations

Building a Dashboard: Open Dashboard Builder tab, select active dashboard title, and click Add Widget.

Exporting Reports: Choose export options (PDF, Excel, Word, CSV) and click download to compile files.

Configuring Schedules: Go to Scheduled Sharing, input task name, set execution rate, choose channel, and save.

5. Best Practices & Safety Guidelines

- Export cost metrics weekly to check for anomalies in API call loops.
- Use password protection whenever dashboard share links are published externally.
- Verify that scheduled cron tasks do not conflict with system maintenance periods.

6. Troubleshooting & FAQ

- Stale charts data: Refresh system caching keys and verify connection of MongoDB aggregation pipelines.
- Share link expired: Access Sharing settings and extend expiration dates.
- Missing call statistics: Verify that the RingCentral API integration status is active.

7. Glossary & Appendix

- Descriptive Analytics: Standard calculations mapping basic statistics.
- KPI Widget: Card rendering a single critical metric value.
- Scheduled Delivery: Automated report dispatches via Email/Slack/Teams.
